

# Temporary Scrap Tire Hauler Registration Form

Updated 07.16.26

## **Purpose**

The New Jersey Department of Environmental Protection (DEP) is developing a new statewide scrap tire management program as required by [P.L. 2025, c.389](#) . Amongst other things, P.L. 2025, c.389 (enacted on January 20, 2026) requires the DEP to establish a scrap tire hauler licensing program and a system to track the collection, transportation, recycling, reuse, and disposal of scrap tires. Pursuant to P.L. 2025, c.389, scrap tire means: (1) a tire that is no longer prudent or practical for vehicular use; or (2) a tire that has not been used on a vehicle for more than six months after the last date it was used on a vehicle.

As an initial step, DEP is requiring any entity that collects and transports scrap tires from their source to any destination, including scrap tire facilities, disposal facilities, recycling facilities, storage sites, or reuse and resale locations, or other locations to complete and submit this temporary registration form.

Submission of this registration form and subsequent confirmation neither function as a scrap tire hauler license nor does submission/confirmation replace future licensing requirements that will be established as the program is developed.

The information collected through this registration form will help DEP:

1. Identify businesses that collect and transport scrap tires in New Jersey.
2. Better understand current scrap tire management practices.
3. Communicate directly with regulated entities regarding program updates and future requirements.
4. Support development of the permanent licensing, tracking, and electronic manifest systems required by the law.

Additional requirements, including formal licensing procedures, electronic manifesting, and other program elements, will be developed as DEP continues its phased implementation of the new scrap tire management program established pursuant to P.L. 2025, c.389. Registered haulers will be notified as new information and requirements become available.

Thank you for your cooperation as DEP works to establish this new statewide program.

## **Instructions for Downloading and Completing this Registration**

- Download the form by selecting the download option.
- Save the file to your computer in a location you can easily find it.
- Open the saved file using Adobe Acrobat.
- Complete all sections of this form and enter name below to certify submission.
- Attach required and additional documents, as applicable.
- Save your completed registration form.
- Completed registration form must be submitted to the DEP, Division of Sustainable Waste Management (DSWM) via email to [scraptire@dep.nj.gov](mailto:scraptire@dep.nj.gov) .

Questions can be directed via email to [scraptire@dep.nj.gov](mailto:scraptire@dep.nj.gov) or by phone (609) 633-1418.

Please indicate if this is ☐ an initial registration form or ☐ a modified registration form.

A modified registration is required for any updates, including but not limited to, changes to the official business name, address or contact information, generator or source material information, facilities receiving scrap tires, or adding or removing vehicles.

## Section I – Contact and Official Business Information

First & Last Name: \_\_\_\_\_ Title: \_\_\_\_\_

Check One: ☐ Corporation ☐ LLC ☐ Sole Proprietorship ☐ Partnership ☐ Other: \_\_\_\_\_

Official Business Name: \_\_\_\_\_

Phone Number: \_\_\_\_\_

Email Address: \_\_\_\_\_

Official Business Location (No PO Box):

Street Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip Code: \_\_\_\_\_

Mailing Address: ☐ Check if the same as Official Business Location

Street Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip Code: \_\_\_\_\_

Does the company hold an [A-901 license](#) in New Jersey to haul solid waste or soil and fill recyclable material? ☐ Yes ☐ No

Have you or the company ever had an A-901 license application denied? ☐ Yes ☐ No

Have you or the company ever had an A-901 license revoked? ☐ Yes ☐ No

Have you or any individuals working for the company been debarred from the waste or soil and fill recycling industry? ☐ Yes ☐ No

## Section II - Geographical Service Area

Check all counties where scrap tire hauling activities occur:

☐ All Counties

☐ Atlantic; ☐ Bergen; ☐ Burlington; ☐ Camden; ☐ Cape May; ☐ Cumberland; ☐ Essex;

☐ Gloucester; ☐ Hudson; ☐ Hunterdon; ☐ Mercer; ☐ Middlesex; ☐ Monmouth;

☐ Morris; ☐ Ocean; ☐ Passaic; ☐ Salem; ☐ Somerset; ☐ Sussex; ☐ Union;

☐ Warren

### Section III – Vehicle Information

| Vehicle Make & Model | Vehicle Identification Information (VIN) | License Plate Number | Vehicle Year | Legal Owner | Vehicle: Owned/Leased |
|----------------------|------------------------------------------|----------------------|--------------|-------------|-----------------------|
|                      |                                          |                      |              |             |                       |
|                      |                                          |                      |              |             |                       |
|                      |                                          |                      |              |             |                       |
|                      |                                          |                      |              |             |                       |
|                      |                                          |                      |              |             |                       |

### Section IV - Scrap Tire Generator/Source Information

Identify all location(s) where scrap tires were/are collected from in 2026 (e.g., business/retailers, government sites, farms, or other sources, if other please explain).

| Generator/Source Name | Physical Address | Number of Tires Hauled in 2026 | Frequency of Hauling | Types of Tires | Tire Type Description (If Other) |
|-----------------------|------------------|--------------------------------|----------------------|----------------|----------------------------------|
|                       |                  |                                |                      |                |                                  |
|                       |                  |                                |                      |                |                                  |
|                       |                  |                                |                      |                |                                  |
|                       |                  |                                |                      |                |                                  |
|                       |                  |                                |                      |                |                                  |

### Section V - Scrap Tire Receiving Facility Served

Identify all location(s) where scrap tires were/are dropped off or transported to in 2026 (e.g., business/retailers, government sites, farms, or other sources, if other please explain).

| Facility Name | Facility Type (Storage, Retread, Reuse, Resale, Recycling, Disposal, Collection, Government) | Facility Location (Street Address) | Facility Mailing Address | Phone Number |
|---------------|----------------------------------------------------------------------------------------------|------------------------------------|--------------------------|--------------|
|               |                                                                                              |                                    |                          |              |
|               |                                                                                              |                                    |                          |              |
|               |                                                                                              |                                    |                          |              |
|               |                                                                                              |                                    |                          |              |
|               |                                                                                              |                                    |                          |              |

## **Section VI – General Liability**

Does the business hold general liability insurance: ☐ Yes ☐ No

If yes, provide the coverage amount and name of insurance company:

## **Section VII – Certification and Signature**

By entering my name below, I certify that I am authorized to submit this information on behalf of the entity identified on this form and that the information provided is true, accurate, and complete to the best of my knowledge. I understand that my typed name constitutes my electronic signature and has the same force and effect as handwritten signature.

First & Last Name: \_\_\_\_\_ Title: \_\_\_\_\_

Date: \_\_\_\_\_

## **Section VIII – Mandatory Scrap Tire Manifesting and Tracking Requirements**

Haulers are required to immediately maintain a comprehensive manifest to track the movement of scrap tires from the point of generation to the final destination. The interim manifest form can be found here <https://dep.nj.gov/dshw/scrap-tire-management/>.

## **Section IX - Next Steps and Future Requirements**

DEP will issue a temporary registration via email, confirming that the company, person, or entity submitting this form is registered to conduct scrap tire hauling (pickup/collection and transportation activities).

Registered haulers will be notified as new requirements become available. DEP will post program requirements and updates, guidance documents, forms, FAQs and other information on the Scrap Tire Management Program website <https://dep.nj.gov/dshw/scrap-tire-management/>.
