

Independence drives us.

Taylor Mitchell

Senior Director, Technology Standards and Solutions

Taylor Mitchell oversees the Auto Care Association technology standards, which include Aftermarket Catalog Enhanced Standard (ACES), Product Information Exchange Standard (PIES), Internet Parts Ordering (IPO) and other best practice recommendations. She also serves as staff liaison to the Technology Standards Committee. As liaison, she is responsible for coordinating projects and helping set strategic direction.

Mitchell was previously employed as project manager and senior business analyst at ACGI Software in Columbia, Md.
